- Built-in Ionizer
- Low water alarm
- Mode: Normal and Sleep(Silent)
- Left-Right, Up-Down oscillating louvers
- LED control panel with 6 speed settings(3 normal + 3 sleep mode) and 24 hours off timer
- Humidifying function

The MAC1600R Mistral Indoor Portable Evaporative Air Cooler is ideal for spot cooling in almost any home or office. Mistral evaporative coolers do not require power hungry components like compressors. The MAC1600R Mistral Evaporative Cooler consumes only 130 watts of power. This low power consumption translates into significant savings on energy bills compared to using air conditioners. Just unpack, add water, place near open door or window, plug it in, and use.

Three fan speed settings, oscillating louvers improve air circulation and provide an even distribution of cleaner, cooler air for room. The MAC1600R Mistral Evaporative Cooler includes an automatic shutoff timer for even more energy savings. The LED control panel is easy to use and the remote control lets you operate your air cooler from across the ROOM. Plus, this lightweight unit has top handle and four durable caster wheels allowing easy mobility from ROOM to ROOM.
